

Cleaning to Prevent Errors

Adhesive Remover Swab

K2-S6T50AR

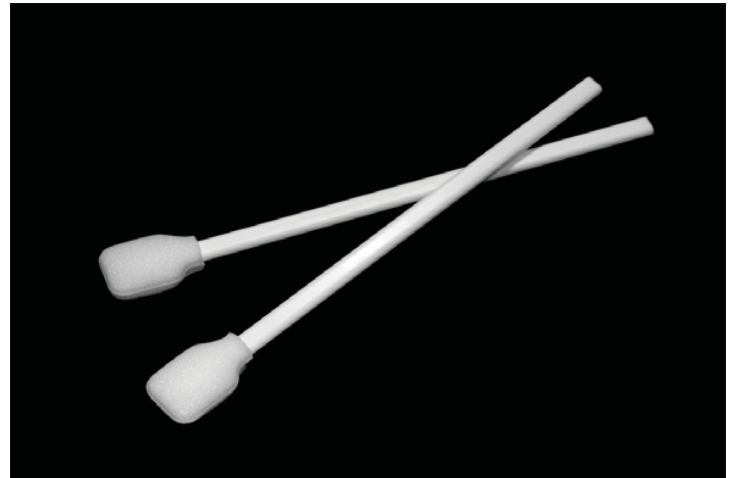

This swab, complimented with EZ-Off solution, removes adhesive residue from hard surfaces and thermal print heads. When used it will:

- Remove adhesive residue from hard plastic and other surfaces
- Remove adhesive residue from thermal print heads, rollers and other printer surfaces

Use as:

- A scheduled maintenance product to prevent equipment failures
- An emergency maintenance product during equipment failures

How Cleaning Products Work

Transaction devices, such as card readers and thermal printers, need to be maintained for performance reliability. Cleaning products safely and easily remove dirt and other contaminants from within these devices without costly outside assistance. Each transaction device requires specific cleaning products to be used as preventive or corrective maintenance.
