

Inventory Control

Stock Control Solutions for Small Business

InventoryControl

Wasted time spent searching for missing stock.

Costly year-end stock write-offs.

Empty shelves and disappointed customers.

S o u n d f a m i l i a r ?

Get in control of your stock with Wasp Inventory Control – the complete stock management solution for small business. Wasp InventoryControl offers small businesses the ability to accurately track stock, without the complexity or expense of an enterprise solution. Easy. Efficient. Affordable.

With Wasp InventoryControl, it's simple to track and manage stock at multiple locations and sites. Easily create new stock items, or import existing supplier and stock data using the Import Wizard. Create barcoded labels and tags for fast, efficient tracking. Check stock in and out to customers and employees. Quickly perform audits and cycle counts to ensure data accuracy.

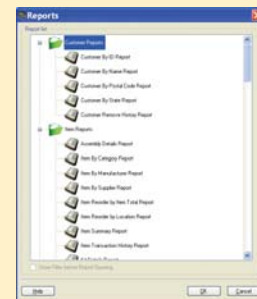

InventoryControl gives you powerful perspective on your business. Access over 60 business management reports, including total cost of stock, stock aging, transaction history, and more. Track stock turns to optimize purchasing and stock levels. Use InventoryControl's business alerts to receive notification of low stock levels, and quickly email purchase orders to your suppliers, ensuring that the stock you need is on hand. Wasp InventoryControl delivers the tools you need to ensure that your business is running smoothly, in an intuitive, easy-to-use interface.

Wasp InventoryControl is ideal for tracking stock in many applications, including:

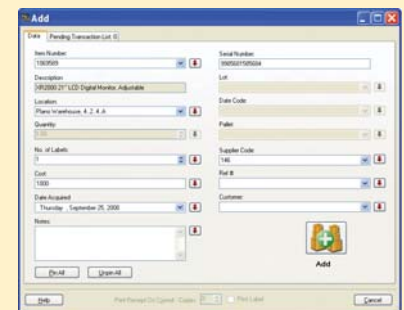

- Warehouses
- Light manufacturing & distribution centers
- Retailers
- Stock rooms & supply closets
- Mobile trucks carrying stock
- Installation contractors or any business that buys, stocks and sells parts and products

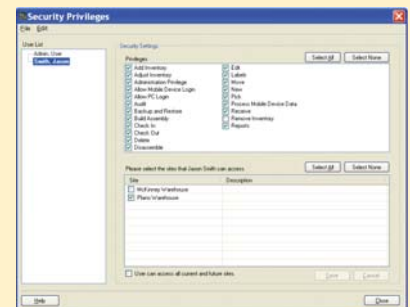

▶ Manage your stock

▶ Access pre-built management reports

▶ Add items to stock

▶ Feature-based security
