QuickStore

POINT - OF - SALE

Big Business Tools. Small Business Attitude.

Wasp QuickStore ePOS solutions are designed to help independent retailers run faster and more efficiently, while providing customers with the service they demand. Wasp's easy-to-use ePOS barcoding solutions deliver the tools that larger retailers use, without the complexity or cost typical of these solutions. Whether you are opening your first retail or store or planning to expand your operations, Wasp QuickStore will improve your business efficiency. Lower operating costs, improved sales and higher customer satisfaction will help make your business a success.

Wasp QuickStore delivers easy access to stock, customer, sales and business data in one software solution. From maintaining accurate stock counts to tracking customer purchase history and item sales history, QuickStore delivers the information you need to manage your retail business.

The Wasp ePOS hardware solution includes a cash drawer, a point-of-sale keyboard with integrated magnetic stripe reader for credit card processing, a point-of-sale pole display, a barcode scanner, and a receipt printer. This hardware may be purchased as a complete ePOS solution or as individual components.

QuickStore

POINT - OF - SALE

Wasp Point-of-Sale solutions are ideal for retailers including apparel and shoe stores, bike and hobby shops, liquor stores, nail and beauty salons, sporting goods stores, and gift shops. Wasp QuickStore is available in three versions, designed to fit the functional needs of small retailers:

- ▶ **Wasp QuickStore Standard Edition**
 - Recommended for a single store with moderate traffic and stock levels
- ▶ **Wasp QuickStore Professional Edition**
 - Recommended for a single store requiring more robust features for larger operations with multiple lanes or checkouts, or a store with higher traffic, stock management and customer service needs
- ▶ **Wasp QuickStore Enterprise Edition**
 - Recommended for retail businesses with multiple store locations or plans to expand
 - Includes all of the features available in QuickStore Professional Edition

Track Inventory. Each stock item can have a unique 12 digit UPC barcode number that identifies the item when scanned. Stock items can have a 25 character description, a 200 character detailed description, a 5 character department code, and a 5 character fashion or order code. Set up stock with apparel matrix or single product SKU, and take physical inventories by scanning barcodes.

Check-out Customers. Create sales, layaways, and gift certificates, enter item and invoice notes, tender multiple payments, scan items for fast and accurate check-out, and check-out up to two customers at one time.

Name	# of Invoices	Average	Discount	Cost	Subtotal	Total
