InventoryControl

Stock Tracking Solutions for Small Business

Get in control of your stock with Wasp InventoryControl – the complete stock tracking solution for small business. Increase the value of your business, satisfy your customers and create more freedom in your life with InventoryControl.

Have you ever experienced:

- the financial impact of a stock write off?
- the embarrassment of calling your customer back when you can't actual deliver the product?
- the wasted time searching for stock you know you have (but can't find)?
- the loss of sales when you're out of stock?

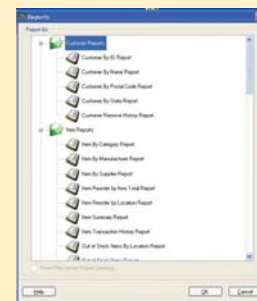

These and other stock related problems are frustrating, are financially stressful and have a direct impact on your ability to succeed. Now, Wasp InventoryControl provides all the capabilities you need to track your stock without the complexity or expense of a big system. **Easy. Efficient. Affordable.**

From individual contractors to larger operations with multiple locations, InventoryControl will help you. It's ideal for:

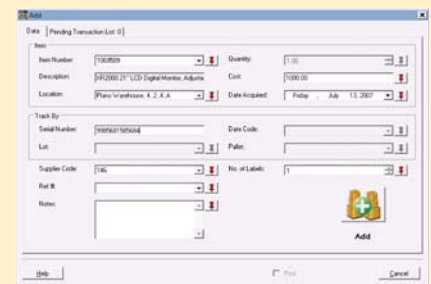

- warehouses
- light manufacturing and distribution centers
- retailers
- stock rooms & supply closets
- inventory-carrying mobile trucks, ships or containers
- installation contractors or any business that buys, stocks and sells parts and products.

▣ **FEATURES**

Track Stock

- ▶ Track stock at multiple locations and sites
- ▶ Move stock from one site to another

Print Barcode Labels for Shipping, Products or Location Tags

- ▶ Create, customize, and print barcode and data labels with the integrated labeling software
- ▶ Attach labels to items, sites, locations, or documents

Fast and Easy to Use

- ▶ Import existing stock and suppliers using the Import Wizard
- ▶ Navigate using InventoryControl's user-friendly interface

Review Quantities

- ▶ View critical count levels, such as total available, total checked out, total in house

Create New Inventory Items

- ▶ Create a new item number by scanning, typing, or selecting a number from a drop-down list
- ▶ Identify new items by any number system, such as SKU, UPC, barcode, or serial number
- ▶ Set up the system to auto enter a serial number for each new item and establish a starting number

Access Information Instantly and Securely

- ▶ Find critical data quickly using advanced find feature
- ▶ Over 30 pre-built reports

▣ **BENEFITS**

- ▶ Maintain current stock counts
- ▶ Increase sales due to improved responsiveness to customers and distributors
- ▶ Reduced write-downs/write-offs
- ▶ Reduce stock outs and overstocks
- ▶ Reduce labor costs
- ▶ Know where all stock is located, onsite or offsite
- ▶ Track the cost of your stock
